SELECTMEN'S REPORT

Meetings: Held on 2nd and 4th Mondays at 8:00 P. M.

The new Centre School was completed in time for the opening of the fall term. We wish to thank the School Building Committee for their untiring effort in seeing the building through to completion. This committee was unpaid and their only compensation was the satisfaction of seeing the construction of a building to which the townspeople can point with pride. The school children are enthusiastic about the many modern facilities of their new building and that, as you know, is unusual. We think they actually enjoy going to school this year. We hope to complete the landscaping and to construct areas for sports and play in the rear, this coming year.

Again we call your attention to constantly rising costs of welfare and old age assistance. It seems our benevolent government plans for a comfortable old age but forgets all about the struggle of paying heavy taxes that the younger people have to go through to make this possible.

The problem of snow removal and of sanding the roads becomes greater and greater each year, as the townspeople demand more sanding of the roads. There is only one answer and that is to increase the appropriation for snow removal if they want the roads sanded like the state highways which have unlimited funds available.

Constantly rising costs of the materials and equipment we buy, plus wage increases make it more and more difficult to hold down the tax rate. This is the first year we will feel the full impact of the payment of the notes and interest on the new school. However, with the co-operation of voters at the Annual Town Meeting, and by following the suggestions of your Advisory Board, we hope that the 1951 tax rate will show only a small increase.

Respectfully submitted,

WALTER T. HOLMES

HERBERT A. PHELAN, Clerk

CHARLES H. WEEBER, Jr., Chairman

Town Accountant

SUMMARY REPORT OF STATE AUDIT

Mr. Francis X. Lang,
 Director of Accounts,
 Department of Corporations and Taxation,
 State House, Boston.

Sir:

As directed by you, I have made an audit of the general accounts of the town of Norfolk for the period from September 18, 1949, and of the Town Treasurer's accounts for the period from January 1, 1950, the dates of the previous examinations, to October 23, 1950, and report thereon as follows:

The financial transactions as recorded on the books of the departments receiving or disbursing money for the town or sending out bills for collection were examined, checked, and verified.

The books and accounts of the town accountant were examined and checked. The receipts as recorded were checked with the available departmental records and with the treasurer's books, while the payments were compared with the treasurer's warrants authorizing the disbursement of town funds.

The ledger accounts were analyzed for the period covered by the audit, the appropriations and transfers from the reserve fund were checked with the amounts voted by the town as shown on the town clerk's record of town meetings and with the authorizations of the advisory board, and a balance sheet which is appended to this report was prepared, showing the financial condition of the town on October 23, 1950.

The overdrawn accounts as shown on the balance sheet are contrary to the provisions of Section 31, Chapter 44, General Laws. In connection with the expenditures for Chapter 81 and Chapter 90 highway projects (shown as overdrafts on the balance sheet), attention is called to the fact that these overdrafts could have been avoided either by incurring a temporary loan as authorized by Section 6A, Chapter 44, General Laws, or by appropriating the amounts allotted by the State and County from surplus revenue with a provision that when such funds were actually received from the State and County, they be restored to the surplus revenue account.

It is recommended that the assessors notify the town accountant at least monthly of all abatements granted, as required by Section 23B, Chapter 59, General Laws.

The books and the accounts of the town treasurer were examined and checked. The recorded receipts were analyzed and verified by comparison with the records in the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while the disbursements were compared with the selectmen's warrants authorizing the payments.

The cash balance on October 23, 1950, was proved by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of cash in the office.

The payments of maturing debt and interest were proved with the amounts falling due and with the cancelled securities and coupons on file.

The records of tax titles held by the town were examined and checked. The amounts added to the tax title account were compared with the tax collector's records, the tax titles redeemed were checked with the receipts as recorded on the treasurer's cash book, and the tax titles on hand were listed and compared with the records in the Registry of Deeds.

It is again recommended that proceedings be started by the town treasurer to foreclose the rights of redemption on all tax titles held over two years, as required by law.

The savings bank books representing trust fund investments in custody of the town treasurer were examined and listed, the income being proved and the withdrawals verified.

The books and accounts of the tax collector were examined and checked. The poll and property taxes, and motor vehicle and trailer excise outstanding according to the previous examination, as well as all subsequent commitments, were audited and checked to the warrants for their collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' records of abatements granted, the transfers to the tax title account were checked with the treasurer's record of tax titles held by the town, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The commitments of water charges were examined and checked. The recorded payments to the treasurer were compared with the treasurer's cash book, the abatements were checked to the commissioner's records of abatements granted, and the outstanding accounts were listed and proved to the accountant's ledger.

It is recommended that the accountant be notified promptly of all commitments made to the water collector.

Verification notices were sent to a number of persons whose names appeared on the books as owing money to the town for taxes, excise and water accounts and from the replies received thereto, it would appear that the outstanding accounts as listed are correct.

The commitments of departmental accounts receivable were examined and checked. The recorded receipts were checked with the payments to the treasurer and with the accountant's books, and the outstanding accounts were listed and proved to the accountant's ledger.

The town clerk's records of dog and sporting licenses were examined and checked, the payments to the State being verified by comparison with the receipts on file and the payments to the town being checked to the treasurer's cash book.

The surety bonds furnished by the several town officials for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts from selectmen's licenses, of the sealer of weights and measures, of the library and police departments, and of all other departments collecting money for the town were examined, checked, and reconciled with the treasurer's and the accountant's books.

In the examination of the paid vouchers on file, it was noted that a bill for expenses incurred outside the Commonwealth was paid and charged to the school department appropriation for 1950. In cases of travel expenses incurred outside the State, it is recommended that payment be made from a special appropriation voted in accordance with the provisions of Clause 34, Section 5, Chapter 40, General Laws.

It was further noted that several bills of town officials for services rendered in 1949 were paid from the appropriation accounts of 1950, in which connection attention is called to the provisions of Section 64, Chapter 44, General Laws, which provides that appropriations for unpaid bills of a prior year may be voted at an annual meeting by a four-fifths vote or at a special meeting by a nine-tenths vote.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and tax collector's cash, summaries of the tax, excise, tax title, departmental and water accounts, as well as tables showing the condition and transactions of the trust funds. (On file in town offices.)

While engaged in making the audit, cooperation was received from all town officials, for which, on behalf on my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

(Signed) HERMAN B. DINE,

Assistant Director of Accounts.

REPORT OF MEETING OF BUILDING CODE COMMITTEE

To Board of Selectmen of Norfolk:

(1) Voted to adopt the entire building code of the Town of Sherborn with the following changes:

Art XI, Section 9: The word "spruce" shall be changed to "material."

(2) Voted to adopt the entire plumbing code of the Town of Sherborn*.

(3) Voted to adopt the entire wiring code of the Town of Sherborn*.

JOSEPH F. ROCHE, JR.
CHARLES DOUCETTE
ALBIN OBER
FRED MEDA
FRANCIS D. FAULKNER

*Copies of these codes are too voluminous to include in this report and the Selectmen suggest this study be continued further and be made the subject of a special town meeting.

REPORT OF THE BUILDING INSPECTOR FOR YEAR 1950

Board of Selectmen:

Number permits issued	33
Total valuation	\$86,800

Fees collected	\$75.00
Number new dwellings	24

Respectfully,
 JOSEPH F. ROCHE, JR.
 Building Inspector.

REPORT OF THE FIRE DEPT. FOR THE YEAR 1950

To the Honorable Board of Selectmen:

Calls received	95
Buildings	15
Brush	38
Inhalator and Resuscitator	2
Dump	5
Electric	21
Auto	3
Missing Persons	4
Other emergency calls	7

The department needs 2½-inch and 1⅛-inch hose this year. As prices are bound to be higher later and merchandise scarce we feel we should buy now.

The Fire Company bought with money from their Field Day a panel body Ford truck to be used as an emergency truck. The company had the truck painted, had flashing red light and siren put on. This truck was given to the town by the fire company. There is need for a modern stretcher for this emergency truck so it may be used as an ambulance if necessary.

We have included a sum for purchase of same in our budget.

Respectfully submitted,

HAROLD E. CAMPBELL
 FREDERIC HOWARD
 JOHN J. McCORMACK
 WILLIAM F. SULLIVAN
 RAYMOND CATALDO

REPORT OF THE GYPSY MOTH SUPERINTENDENT

The trees on most streets were sprayed. The gypsy moth are bad in the southeast part of town. The elm tree beetles are very bad in all parts of the town and need more spraying.

Respectfully submitted,

E. T. BUCKLEY

REPORT OF TRUSTEES OF PUBLIC LIBRARY

The need of new quarters for the Public Library continues to grow. A library is not only a building for the custody and circulation of books, but should have room for at least a desk or table where reference books could be used for special reading or study, free from disturbance and confusion.

We appreciate the attitude of the Grange in not requesting us to make a move, but realize how much they would like that room for their own use.

Therefore, the trustees of the Public Library feel that the town should take some action and provide adequate room and space which will allow for the growth of the town and consequently of the library.

Signed

EDNA T. HUBBARD
ELIZABETH C. FOSS

REPORT OF THE BOARD OF PUBLIC WELFARE

The Board of Public Welfare submits its report for 1950:

State budget requirements made it mandatory that we spend \$30,636.13 for Old Age Assistance to 46 people, an increase of \$3,511 over the amount spent in 1949; \$2,723.92 on Aid to Dependent Children. This Board spent \$3,784.71 for General Relief, which is entirely Town administrated.

If referendum No. 3 passed by the voters of the State of Massachusetts at the November, 1950, election becomes a law June 1, 1951, we can expect our case load and our total expenditures to at least double.

This Board meets the first and third Thursday of every month at the Town Offices at 7:30 P. M. at which time the members of this Board will be glad to help their recipients with any problems which confront them.

Respectfully submitted,

FRANCIS DINEEN, Chairman
ETHEL BARTELL, Clerk
RUTH SHEA

REPORT OF THE SUPERINTENDENT OF STREETS

The equipment of the department amounts to the following:

1 1948 2½-ton International Truck

- 1 1946 2-ton International Truck
- 2 1939 1½-ton International Trucks
- 1 1936 2½-ton International Truck
- 1 1950 Oliver Tractor and equipment
- 1 1927 McCormick-Deering Tractor
- 1 6-ton Motor Grader
- 1 12-ton Roller
- 1 Gravel Loader
- 7 Snowplows
- Miscellaneous tools.

This equipment is in good mechanical repair with the exception of the two old trucks. One or both of these should be replaced as soon as possible.

The new tractor purchased in May has proven to be a great labor saver. We have used it to bulldoze and load gravel primarily, to mow the sides of the streets in town, plus the Town Hall Hill, and now are using it with its snow plow attachment.

The town now has approximately 43½ miles of road with the addition this year of the three streets in the Mart LeVack building development, namely Geneva Street, Ware Street and Malcolm Street. We hope to tar-surface these three streets this next year.

We expect to tar-surface River Road this next year, starting at the airport and continuing for approximately 1000 feet.

A good start was made on straightening Main Street. Eighteen hundred feet (1,800) of new road was constructed from Lake St. to Myrtle Street. If funds could be made available, we would like to continue this project from where we left off at Lake Street back toward the center of Norfolk for approximately 2000 feet.

We continued the effort to wipe out poison ivy along the roads and feel real progress has been made during the last few years toward permanently exterminating this plant.

The winter of 1949-1950 was very mild. We sanded and salted icy roads, and were able to handle the snow easily and keep within our appropriation.

The rate of pay for the department is as follows:

- Superintendent \$1.65
- Drivers \$1.25
- Laborers \$1.15
- Temporary Laborers \$1.00

The breakdowns of road appropriations follow:

Signed,

FREDERIC A. WOODWORTH

TREE WARDEN'S REPORT

Elm trees were sprayed with DDT. Several trees removed and some dead wood taken off. With the elm tree beetle on the increase and with labor increased it is impossible to do all the work that needs to be done.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Norfolk the School Committee submits its Annual Report:

Regular meetings of the School Committee are held at the School Building at 7:30 P. M. on the Thursday evening before the fourth Monday of each month, except during July and August. Special meetings are also held when necessary.

Our new Norfolk Central School Building has, since the opening on September 6, 1950, contributed much to the efficiency and perfection of our school system. The new and larger classrooms offer the proper

facilities for carrying out a modern program of education and the new furnishings add much to the pleasant atmosphere of the classroom. Our school children now enjoy all of the advantages of a first class school system.

Your school committee and your superintendent are constantly striving to keep our school system abreast of the times and are advocating changes and improvements in accordance with the modern trends and techniques in education, always with due regard for the rights of all of the citizens and taxpayers. With this thought in mind we are asking for an additional appropriation this year, under a separate article for development of a much needed physical education program.

The elementary schools of Norfolk have never carried out a proper physical education program for the physical development of our children. Such a program is considered very important and is now a regular part of school activities in every modern school system. Development of strong bodies as well as strong minds are a definite obligation if we are to expect worthwhile citizens in the future.

Up to now, we have not had the adequate space needed for a good physical education program, either inside of our school buildings or playground space adjacent to our schools. We now have a large room, namely, Washburn Hall, where we can develop inside games. Our large and adequate playground space offers magnificent possibilities for sports of all kinds for our school children and our citizens.

With this thought in mind your school committee is asking for \$3500 for physical education development. These funds will be used for equipping Washburn Hall for basketball and other games, for the development of a playground at the north end of our building with certain equipment to be used, especially for the younger children. We feel that this project should have the support of all of our citizens who are interested in the continued welfare of our children. Such an investment in the youth of our town will pay large dividends in the future.

Our school budget has been carefully examined for every possible economy consistent with up to date methods in education. The increase this year is due for the most part to higher costs in High School tuition, higher costs for additional transportation and additional funds for books and supplies, which is due to the substantial increase in enrollment in our elementary school.

The School Committee wishes to express its thanks to the teaching staff for its continued loyalty and cooperation. Our staff carries out the duties of teaching with a spirit and enthusiasm, for which we all extend our heartfelt thanks and appreciation.

Respectfully submitted,

ALVIN J. FREEMAN, Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of the Town of Norfolk:

I hereby submit my second annual report. Following this section are the reports of the Principal, Supervisors and School Nurse.

No single school report covers all the aspects of school administration. The purpose of this report is to summarize the highlights of the department during the current year.

Personnel and Plant:

For a matter of record the faculty and their assignments prior to September were as follows: Center School, Clarence E. Washburn, Principal, VIII; Miss H. Olive Day, Assistant Principal, VI and VII; Mrs. Barbara Cotten, IV; Mrs. Ruth A. Fernald, III, and Jean Gilmore, I. City Mills School, Mrs. Gertrude McBride, Principal, V; and Miss Barbara Hamilton, II.

The two one-room buildings across from the Center School were used one day each week: one for Domestic Science under the direction of Mrs. Mabel Greeley and the other for Manual Arts under the supervision of Mr. William Edwards.

Resignations were received from the following at the close of the last school year in June: Mrs. Barbara Cotten resigned to be at home; our Art Supervisor, Mr. Frederick Wellesman resigned to devote full time to Art in Westwood; Mrs. Anna Reed resigned to accept a position in a larger community.

With the increased enrollment it was deemed advisable to add to our teaching staff. For the fall term the following teachers were given contracts for the positions indicated: Mrs. Jeanne Hill, VI; Miss Mary Jane Crowley, II and III; and Miss Ann Coughlin, IV; Mrs. Eleanor Edwards, Supervisor of Music, and Mrs. Dorothy Wallace, Supervisor of Art.

The new Norfolk Central School was opened as scheduled on Wednesday, September 6, 1950. On the first day an assembly for the entire student body was conducted with Mr. Washburn, Principal, chairman for the occasion.

Your School Committee members and Superintendent were present and participated in the program.

Mr. Washburn became ill and passed away on September 19th. He had served Norfolk well for many years as Principal of the Center School. He had been conscientious, loyal, dependable, and was devoted to his school work. His passing was felt by all of us.

Through contribution of the students a plaque was erected in his honor in the All Purpose Washburn Hall.

Out of respect for Mr. Washburn, his position was not filled until November 1st. At that time Mrs. Gertrude McBride was appointed Principal and Miss Olive Day, Assistant Principal. Mrs. Alice Field was employed to teach grade eight.

Tests:

Last spring both intelligence and achievement tests were administered. Capacity to learn is measured by the intelligence tests while knowledge which has been acquired is measured by achievement tests.

Each case was treated separately. The findings are used educationally by each teacher to help serve each pupil better. It is well to add that every teacher is constantly aware of the physical, social and emotional side of the pupil. Today in education the emphasis is on boys and girls first, and then subject matter.

High School:

Last year your superintendent, with the permission and cooperation of Mr. Strout, Principal of Walpole High School, was allowed to hold conferences with the Norfolk students who were failing in one or more subjects after each marking period. With this plan, a contact was maintained for the good of the student.

The new Norfolk school offers many advantages. When two or more schools are closed and a larger unit is operated to take care of the former situation, this is known as consolidation. Therefore, the new Norfolk Central School is a consolidated school.

Some of the advantages over the former situation are, the school plant is centralized; transportation is to one point; classrooms are better lighted and more suited to the modern plan; furniture is found in every room permitting more modern technique; Washburn Hall is used for school assemblies of all kinds and it is available to the towns-

people for certain occasions. The Grange has been most cooperative for many years to allow the School Department to utilize the facilities.

The play area and athletic field when developed will be ideal for the school children and the youth of the town.

The dedication of the Norfolk Central School was held on December 14, 1950. The program was as follows:

BENEDICTION

Rev. Edward C. Bailey, Pastor, St. Jude's Parish

During the morning of the same day an excellent program with all children participating was conducted. At this assembly, Selectman Mr. Walter Holmes presented to the school the United Nations flag. Your School Committee and Superintendent were also present and participated in the program.

LOOKING AHEAD:

Reading was, and is, in the opinion of the writer, a basic in education.

Supplementary books in reading, science, social studies, will further strengthen our unit. With these additional books our students will be given an opportunity to cover more materials according to their abilities and interests. We hope to purchase some of these in 1951.

Probably one of the best visual aids for elementary schools is the 35 millimeter projector. Norfolk owns one of these and a limited amount of film strips and slides. It is our plan to add to our present supply.

Certain 16 millimeter films will also be made available for our school.

In closing I wish to thank the members of the School Committee, the members of the Building Committee, the Principal, the Assistant Principal, the members of the entire School Personnel and the townspeople for their wholehearted cooperation.

Respectfully submitted,

GEORGE C. ROY,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF THE CENTRAL SCHOOL

To the Superintendent of Schools:

As I submit the first report of the Norfolk Central School, I am happy to tell you that our school program is developing into an entirely satisfactory one.

At the present time there are nine classroom teachers and four special teachers who visit our classes one day each week for Manual Arts, Music, Art and Household Arts. Each and every teacher is doing his or her best to in some way improve the standard of the school.

Washburn Hall affords facilities to carry out activities which have never before been possible. The basic idea which we try to keep in mind in all our work with student activities is that giving students opportunities to "learn by doing" is our best opportunity to develop character, good citizenship, ability to work with others and an understanding of the meaning of responsibility.

An assembly of all classes has been held in Washburn Hall once during each month since the opening of school in September. The large attendance of parents and friends at the assembly on the morning of the Dedication Day was very gratifying to the members of the faculty. Much credit must be given to the entire school personnel, to the members of the P. T. A., and to the Townspeople who so graciously assisted in many ways to make that day a splendid one for Norfolk.

All recreation periods are properly supervised by two teachers on the playground and the same number on special duty in the building. We are finding this a very satisfactory arrangement which eliminates many discipline problems.

The milk program is being carried out as usual with about one-third of the children participating. Ice cream is sold daily; any profit from the sale of ice cream will be used for the benefit of the school.

We are looking forward to an organized visual education program in the near future when we may have films and film strips to correlate with our classroom subjects.

Mr. Roy is placing much stress on the teaching of reading. He has made it possible for the teachers to hear several reading consultants give interesting and profitable lectures, and for Mrs. MacBride and Miss Day to attend sessions of the New England Reading Conference held at the Hotel Statler in November.

In closing, may I express my thanks to the members of the School Committee, to the Superintendent of Schools, to all members of the school personnel and to the parents and citizens of the town who are working together for the benefit of our children.

Respectfully submitted,

GERTRUDE D. MacBRIDE,

Principal.

REPORT OF THE ART SUPERVISOR

To the Superintendent of Schools:

It is a pleasurable experience coming to Norfolk to teach art. The children have creative ability and there is a wonderful spirit here that pervades everything regardless of whether a school is old or new.

It is a fine thing to teach in a school that is so lovely that it needs little decorating to enhance it, that has fine large desks that make art work easier, and has such cooperation, interested teachers and pupils.

So it is a challenge to make one's work the finest ever, in keeping with everything else.

The art material on hand have proven, so far, to be very good. Both children and teachers strove to make the dedication exercises memorable in every way. Advice on, and participation in the art work was our contribution to the success of the event and one feels that at times like this, that art and music prove very useful and helpful.

At a future time, I should like to see some of the older pupils paint murals in the two empty plaster walls in front of Washburn Hall. This is work that one should work into, gradually, if given permission to go ahead. The work, in the main, follows a need in correlation or integration with school subjects, whenever the need is felt.

Respectfully submitted,

DOROTHY WALLACE,

Art Supervisor.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

Number of schools visited	2
Number of school visits	41
Number of inspections of pupils in schools	2065
Number of exclusions, 8 pediculosis, 1 impetigo, 2 coughs	11
Number of pupils weighed	134
Number of vision tests (6 notices)	75
Number of hearing tests (3 notices)	146
Number of pupils referred to doctors	1
Contagion found in school (impetigo)	1
Contagion found in homes (whooping cough)	1
Number of health talks	38
Number of room inspections	28
Number of home visits	35
Number of pupils inspected in homes	26
Number of pupils taken home	2
First aid given to	5
Assisted doctor to examine	278
Assisted dentist to examine and treat	42
Number of 100 per cent cards given at dental clinic	30
Children examined at pre-school clinic	18
Classes in first aid	16
Meetings attended	2
Consultations	20

As usual the year was a busy one, and also as usual a healthy one, apart from a few cases of whooping cough and colds.

It is hoped that we may have a 100 per cent attendance at the pre-school examination in June, as it gives the parent an opportunity to talk with the school doctor and nurse when the child is examined, also if any defects are found, the entire summer is ahead, so that corrections can be made, and prevent loss of school time later.

Again we thank the P. T. A., Teachers' Club, Grange and Salvation Army for the donations to the Dental Clinic.

The new school is an asset, and it is deeply regretted that the late Clarence Washburn did not live to enjoy it and work with us as in former years.

I would like at this time to thank the teachers and parents for their great cooperation, without which the health program would suffer greatly.

Respectfully submitted,

NELLIE I. SAUNDERS, R. N.

School Nurse.

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent of Schools:

The program of music in all the grades consists chiefly in singing activities. This provides an outlet for self-expression and can give the children great pleasure. Other phases of music such as dancing, playing (rhythm bands and instruments), listening and creating may all be offered in the future when additional equipment and time are made available.

Children should learn to read music. They become acquainted with musical ideas in the primary grades. This approach is called reading readiness and leads naturally into the program of music reading in the intermediate grades. Part-singing is aspired to in the upper grades sometimes beginning as early as the fourth grade.

This year all the children's voices were tested and classified individually and special help was given those needing it in tone matching.

Every grade participated in the dedication program with patriotic songs and in an informal Christmas carol sing.

The music work of the seventh and eighth grades culminated in the presentation of the operetta "Pinafore."

The cooperation and support of the teachers was excellent in all the music work of this year and response of the pupils was most gratifying.

Respectfully submitted,

ELEANOR D. EDWARDS,

Supervisor of Music.

REPORT OF THE HOME ECONOMICS TEACHER

To the Superintendent of Schools:

I wish to submit the following report:

The eighth grade girls are learning the basic principals of cooking, sewing and entertaining. At present they are starting on a dinner course having just finished a breakfast course. Later they will serve luncheon to various groups.

The seventh grade girls are learning the various stitches in sewing and embroidering, later they will learn to operate and use the sewing machine.

It is a pleasure to work in the school building, to have running water and not have to carry it. It is much easier to teach the habits of cleanliness in cooking when plenty of water is available.

Respectfully submitted,

MABEL B. GREELEY,

Home Economics Teacher.

REPORT OF THE MANUAL ARTS SUPERVISOR

To the Superintendent of Schools:

The Manual Arts classes in Norfolk are not taught with the intention of making cabinet makers or carpenters of the boys. The purpose is to give an understanding of tools and their uses.

The seventh grade boys are taught the proper use and care of hand tools. Small projects that can be done by hand are built. Some of the articles made this year were: bird feeding stations, bird houses, small corner shelves, simple coffee tables, stools and one boy made a carrying box for tools.

In the eighth grade, the boys having had their training in hand tools, go on to the uses and care of power tools. They learn proper methods of cutting with the circular saw and band saw. Wood turning is a fascinating and exacting study. Some of the boys built coffee tables with turned legs, others used the lathe for rounding the ends of square legs so that they might be inserted in the bottoms of tables.

Each boy was asked to make a drawing of his project before he started the actual work of assembly. Some of the drawings were rough and out of proportion and some were well-proportioned and drawn in perspective. Some help could be given in mechanical drawing and

print reading but no time was allotted to this study. It is hoped that sometime in the future a class in mechanical drawing may be started.

A few projects were completed and taken home at Christmas. All major projects were finished by spring and some additional small projects were completed by the end of the school year.

Respectfully submitted,

WILLIAM N. EDWARDS, JR.,

Manual Arts Supervisor.

REPORT OF THE WATER DEPARTMENT

During 1950, eight new service connections were made, bringing the total to 92. The total number of families served is slightly greater than this number, since the owners of duplex or multiple apartment buildings are presently billed on the basis of the number of units served.

The average daily requirement of water for the town was 10,300 gallons, which in turn amounts to approximately 42,000 gallons annually per water applicant.

Water, as heretofore, is supplied by the State from the Norfolk Prison Colony. Although plans have been developed to extend the prison water supply, no funds have been appropriated to fulfill such plans. Prison authorities have, therefore, requested that, particularly during periods of water shortages, that Norfolk citizens cooperate by conserving water wherever possible. This request has been observed in the past and is appreciated by the prison officials and by the Water Commissioners.

The possible shortage of water from the prison supply emphasizes the importance of planning for a potential independent source of town water. To date, exploratory drillings indicate our best source to be north of Medway Street and approximately 1000 yards east of Myrtle Street. On the basis of surveys made to date, and the indication that no immediate expansion of prison wells is contemplated, it may be advisable to consider future expansion of water mains in the direction of a suitable source of water supply.

If new construction is considered, it should be noted that under present conditions, at least four to six months should be allowed for acquisition of needed materials.

At the Annual Town Meeting, held in March, 1950, the voters voted favorably on two articles pertaining to financing of water main

extensions. One article covered extensions made along public roads; the other covered extensions made into private developments.

In accord with the latter, money was appropriated to extend mains into properties owned by Mr. W. J. Carlson on Main Street and by Mr. Mart J. LeVack off Rockwood Road. A water main was extended into the Carlson property and annual payments will be made to the town for this project. No work was started on the LeVack property pending the filing of an acceptable contractual agreement.

EUGENE A. HUMBLE

ARTHUR F. BREMILST, Clerk

CHAS. H. WEEBER, JR., Chairman.
